

Muslim Will Customer Email Journey

An A4 report for manually managing customer communications from waiting list through account setup, intake, review sessions, attestation, completion, and long-term review.

Family-first wills, guided by faith.

Core Communication Principles

The goal is to make every customer feel clearly guided, professionally supported, and never unsure about the next step.

Principle	Instruction
One clear purpose per email	Each email should focus on one customer action or one progress update.
Make the next step obvious	Every action-based email should include one primary CTA.
Reduce anxiety	Explain where the customer is in the process and what happens next.
Separate action emails from status emails	Action emails ask the customer to do something. Status emails reassure them that progress is happening.
Use reminders carefully	Reminder sequences should be stronger when the customer has not created an account, paid, completed intake, or booked a required session.
Keep legal and religious boundaries clear	Do not imply guaranteed legal validity, binding religious rulings, or that Muslim Will is a law firm or religious authority.

Confirmed Operating Decisions

These decisions reflect the current operating model: emails are sent manually by the team, not through automation.

Area	Decision	Instruction
Exact triggers	Manual send points	Team sends each email after the relevant client step is confirmed. Track every send in the client tracker.
Timing	Custom by phase	Use a calmer high-trust cadence. Early reminders catch distraction; later reminders should feel supportive, not aggressive.

Area	Decision	Instruction
Segmentation	BHOPE excluded	BHOPE customers will have a separate journey. This report covers the general Muslim Will journey.
Account welcome	On-screen welcome note only	Current system welcome appears on screen after account creation. Email follow-up should focus on the next required action.
Payment flow	Payment before intake	Current journey assumes payment happens before intake. Future payment-after-intake flow should be planned separately.
Payment visibility	Visible manually	The team can see payment status. Still avoid "payment failed" language unless failure is confirmed.
Paid but intake incomplete	Contact after 2 days	A paid customer who has not completed intake after 2 days should receive support-style follow-up.
Intake flow	All stopped sections detectable	Use section-specific reminders when the system shows where the client stopped.
Support options	WhatsApp, email, scheduler	Use email for official instructions, WhatsApp for quick support, and scheduler for complex help or meetings.
Educational content	Placeholders for now	Add explainer links later for executor, guardian, charity, Power of Attorney, witnesses, and ID requirements.
Meeting 1 booking	Immediate after intake submission	Send Meeting 1 booking instructions immediately after intake is submitted.
Meeting requirements	Booking and ID first	Meeting emails should highlight booking and required IDs before the longer document overview.
Witness IDs	Needed for Meeting 1	Witnesses and IDs should be clear before Meeting 1 so Meeting 2 can stay short and professional.
Power of Attorney	Admin question	Confirm with system admin whether PoA documents are always included or only included when selected.
Islamic review timeline	3-5 business days	Use this as the expected review window in client communications.
Meeting 2 attendance	All required parties attend	Customer, witnesses, paralegal, Muslim Will team member, and PoA recipient if applicable should attend.
Final delivery	Email and printed copy	Completion tracking should include both electronic delivery and printed copy preparation/delivery.
Post-completion	Soft and optional	Referral and review requests should be gentle, values-based, and optional.
Language	English only for now	Arabic and French journeys can be planned later if needed.
Compliance	Protective wording by stage	Use clear legal, religious, privacy, and marketing-consent boundaries where relevant.
Metrics	No marketing metrics for now	Still track operational fields: last email sent, next follow-up date, owner, required action, and notes.

Recommended Manual Timing By Phase

Timing is based on a professional-service cadence: quick enough to prevent drop-off, calm enough to preserve trust.

Phase	Recommended Timing	Reason
Waiting List / No Account	Day 0, Day 2, Day 5, Day 10, Day 21, Day 30	Low-commitment interest. Remind without pressure and move gradually into education.
Account Created / Setup Incomplete	24 hours, Day 3, Day 7, Day 14	The client showed intent but has not completed the payment/setup step.
Payment Page Visited / Payment Not Confirmed	Optional 2-4 hours, 24 hours, Day 3, Day 7	Use only if the team can see or reasonably confirm stronger payment intent.
Paid / Intake Not Completed	2 days after payment, Day 5, Day 9, Day 14	After 2 days, treat the paid client as stuck and use support-style follow-up.
Intake Stopped By Section	24 hours inactive, Day 3, Day 7	Use the stopped section to send relevant help instead of a generic reminder.
Intake Submitted	Immediate or same business day	Confirm receipt quickly so the client feels progress.
Meeting 1 Booking Not Done	Send immediately after intake submission, then 24 hours, Day 3, Day 7 if not booked	The first review cannot proceed until the client books.
Meeting 1 Preparation	Immediately after booking, 48 hours before, 24 hours before, 2 hours before	Close appointment reminders reduce missed sessions and missed preparation.
IDs Missing Before Meeting 1	48 hours before, 24 hours before, morning of meeting	ID submission is process-critical and may block the session.
Islamic Review Started	Once when started; expected window is 3-5 business days	This is a status stage, not an action stage.
Attestation Booking Not Done	24 hours, Day 3, Day 7	Final-stage action reminder.
Attestation Preparation	Immediately after booking, 72 hours before, 24 hours before, 2 hours before	Witnesses and IDs may require more preparation time.
Completion	Immediately after completion	Close the journey with reassurance and clear final instructions.
Feedback / Referral	14 days after completion	Give the client time to absorb the value before asking for feedback.
Annual Review	12 months after completion	Professional long-term relationship maintenance.
